What can you do today?

- Use **free** Google Analytics
- Use **free** Optimize for A/B and Multivariate testing
- Talk to Google about **Attribution Beta**
- Work on your measurement **with an Agency/Partnerz**

A man in a blue striped shirt is pointing with a white marker at a chalkboard. The chalkboard is covered in various mathematical formulas and equations, including $T = \frac{U_{lab} + \sum E}{\sum R}$, $f_B = \frac{c_0}{2\pi}$, $\alpha(p, d) = 3 \cdot \left(\frac{cm^2}{kg \cdot s} \right) \cdot \left(\frac{kg}{m^2 \cdot hr} \right) \cdot \left(\frac{hr}{kg \cdot d} \right) \cdot \left(\frac{d}{m^2 \cdot hr} \right) \cdot \left(\frac{hr}{kg} \right)$, and $\sqrt{a - \sqrt{a^2 - b}}$. The man has a focused expression on his face.

**“In God we trust;
all others must bring data”**
